## Task 1 & 2: Creating Views and Basic Routing

**Description:** Created basic views in views.py and linked them with URL patterns.

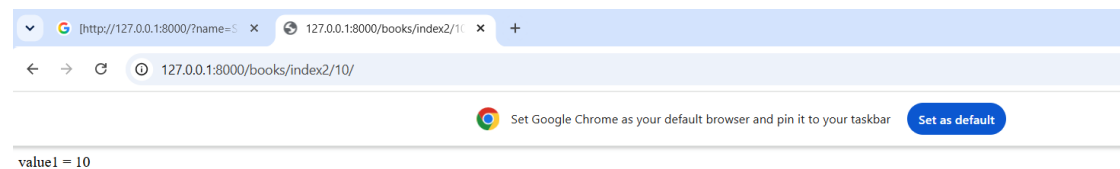

**URL:** [http://127.0.0.1:8000/books/](http://127.0.0.1:8000/books/)

## Task 3: Reading Parameters from URL

**Description:** Extracted parameters passed through the URL path.

**URL:**  
[http://127.0.0.1:8000/books/index2/10/](http://127.0.0.1:8000/books/index2/10/)

## Task 4: Rendering HTML Template

**Description:** Rendered dynamic HTML templates using context data.

**URL:**  
[http://127.0.0.1:8000/books/?name=Shahad](http://127.0.0.1:8000/books/?name=Shahad)

A screenshot of a web browser window. The address bar shows the URL "https://127.0.0.1:8000/books/name=Shahad". The page content displays "Hello fromShahad!" in a large, bold, black font. The browser's search bar at the top contains the text "127.0.0.1:8000/books/name=Shahad". The browser's interface includes a search bar, a "Set Google Chrome as your default browser and pin it to your taskbar" button, and a "Set as default" button. The browser's tabs show "127.0.0.1:8000/books/name=Shahad" and "127.0.0.1:8000/books/name=Shahad". The browser's interface also includes a search bar, a "Set Google Chrome as your default browser and pin it to your taskbar" button, and a "Set as default" button.
